EXPERIENCE

Web Developer at Innova Solutions, *Hyderabad, India* Aug 2021 - Dec 2022

- Achieved a remarkable 39% boost in average supplementary product orders for Uphealth Inc. by developing an advanced administrator's application. This system seamlessly automates order fulfillment, efficiently manages patient information, and optimizes inventory control, among other critical functions.
- Received the Customer Champion Award in recognition of exceptional contributions by guiding the team in completing 8 weeks of tickets in just 4 weeks and fostering customer satisfaction.

Associate Web Developer at Innova Solutions, *Hyderabad, India* Dec 2019 - Aug 2021

- Automated the order process of Uphealth Inc.'s patients by building Nutrascriptives Direct a cutting-edge e-commerce application to order their products, leveraging technologies such as ReactJS, Semantic UI, and .Net framework. This transformative solution catalyzed a remarkable 41% surge in sales revenue. ([Try it here](#))
- Worked on a rewrite project where the core application undergoes a transition from ASP .Net server pages to modern React Typescript and Node.js for the backend.

PROJECTS

MH Fulfilment

- Developed MH Fulfilment an administrator application for Uphealth Inc. with ReactJS and .Net framework.
- The application can efficiently process customer orders and product inventory, and handle patient data.
- Through this application, Uphealth Inc. benefited with an impressive 39% increase in average order volumes.

Nutrascriptives Direct

- Developed Nutrascriptives Direct an e-commerce application using ReactJS, Semantic UI,.Net framework, MySQL.
- The application's primary function is to automate the ordering process for supplements from patients.
- It established a significant increase in sales revenue for Uphealth Inc. with a remarkable growth rate of 41%.

EXTRA-CURRICULAR ACTIVITIES

- Played a pivotal role in sourcing and evaluating experienced professionals while conducting numerous technical interviews as one of the front-end panels of Innova Solutions.
- Under my mentorship at Innova Solutions, I guided a team of 5 trainee engineers, facilitating their mastery of essential web technologies, including JavaScript, ReactJS, and NodeJS. The team was able to deliver 3 client projects ahead of schedule and customers were able to achieve a 29% increase in revenue.

LEADERSHIP

- As the Scrum Master for the Fulfilment application development, I orchestrated a high-performing team, driving project completion two months ahead of the projected timeline. Through deliberate leadership and fostering collaboration, our team generated a remarkable 20% improvement in project efficiency and delivered 15% cost savings while ensuring the project's resounding success.
